

Brownfields 2017 Assessment Grant Fact Sheet

Denton County Transportation Authority, TX

EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Assessment Grant

\$89,100 for hazardous substances

\$89,100 for petroleum

EPA has selected the Denton County Transportation Authority for a brownfields assessment grant. Site-specific hazardous substances and petroleum grant funds will be used to conduct a Phase II environmental site assessment at the Denton County Transportation Authority site at 640 Texas 121 Business in Lewisville. Assessment activities will focus on 46 acres of the site that are currently vacant and formerly were used as farmland, a gravel mine, landfill, and junkyard.
